This Institution is conducted on the Mount Holyoke principle All the teechers and pupils board in the es tablishment. The family and school are so organized that they form constituent part of the same whole, each advancing the i terests of the other, and both uniting to pro ote the improvement and happiness of the aid to some extent in the domestic work c. the family. The portion of time thus occu pied is so small that it does not retard their progress in study, but rather facilitates b ts invigorating influence. It is no part of the design of this Institution to teach young ddies domestic work, as home is the prope clace for the daughter to receive instructi on this important subject. It is designed to furnish to young ladies all the requisite: for a thorough education, and recognizes

nations. The year just closed has been one of harmony in all the departments of the

school.

The Bey, J. M. Leonard, the accomplished and scholarly principal, has been assisted by an able and faithful corps of teachers, and all the interests of the Institution have been promoted by their efficient and cordial co-operation. Under the administration of Mr. Leonard, the course of single has been best athletes.

A new programme will be brought out Mr. Leonard, the course of study has been enlargest and improved, so that now our Seminary will compare very favorably with most of the Western Colleges. It affords unusual facilities in the languages especially, and under the thorough instruction of ly, and under the thorough instruction of the principal, students who come here may carry their studies to any point they chose, not stopping short of a complete college carriculum. During the past year special attention has been given to music, painting and other ornamental branches of a finished cilication, but additional rooms are much needed for our better secommodation in this department. A generous liberality has marked the conduct of the Semin ry from the first, and is still characteristic of it. By the generosity of the principal the children of ministers, without regard to sect, have received instruction gratuitously, and the community where this Seminary is have shown their appreciation of, and interest in it, by their contributions in the years of its history; and now the ladies have initiated in this region the genteuary gifts of this easily washed off with a little soap and water, and preserves and softens the hoof. They have organized the "First Ladies" Local Contenary Association of the Eric Conference, in promotion of the interests of the Seminary, and though there are no men of large wealth among us, this association has already raised some \$2.00, showing thus, as we think an enraced purpose to help ourselves according to our means. May we not with propriety, this centenary year, make one appeal to all the members of year venerable body, and to all the friends of sanctified learning throughout our Conference bounds? May we not plead for generous and nable gifts to this worthy institution of learning. The blessings of a divine providence have been on it from its foundation. SPECIAL NOTICES.

To the Bebilitated and the Beere 14. For general debuilty and exhaustion of the were of marute, whether p canfined by sickness, fast living, constitutional decay, old age, or any needful and ludispensable is HOSTETTER'S CEL REBRATED STOMACH BITTERS. When the Bre of life reems to be absolutely dying out in the system and the mint, sympathizing with the body, and refusigorate both the frame and the intellect writes thus to Dr. Hostetter, "I can compare the operation of your Bitters upon me to nothing but the effect of a rain after a long dry spell in the fall of the year. The rain falling on the meadows starts the second crop of grans, and your whole onto medicino seems to have started a acconrop or life and spirits in me." And this is truly he effect of this araleful I and sowerful preparaion. Ladies of weak constitution, strength has been impaired by sickness or say find it a most efficacions and delightful Tonic

were very valuable, Mr. Culver having paid \$500 for them.
Detective Brooks arrived upon track of the horses after the purchase by Mr. Marvin, and after he had jeft the city. Upon Friday Brooks and Culver went to Atwater, and had an interview with Mr. Marvin, who demanded proof that the horses had been stolen. Brooks and Culver left to procure this, and Mr. Marvin, taking the remaining horse, drove to Pennsylvania to satisfy himself of the facts in the case. He returned upon Monday night, and Tuesday J.S.
